CONSTRUCTION AND TRADE

ABOUT US

Hawchar contracting is grateful to everyone who supports us from day one. from the beginning We confirm that our priority is every single client's absolute satisfaction of our service. We have work experience in Qatar more than 15 years in construction field and trading.

We are looking to leave some organized landmarks in Qatar construction either in private section or in Governmental projects.

We are proud of our client's steady support to achieve the best deliverables.

We promise all customers consultants and clients that our experience gained over a long period of time in the construction industry will be dedicated to your complete benefit.

GOALS AND OBJECTIVES

Objective n° 1

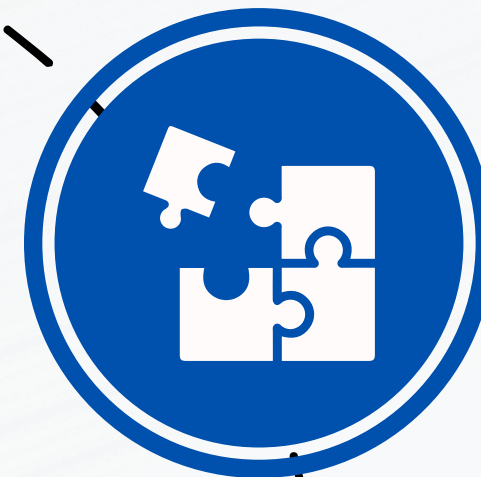

Hawchar contracting management and employees are committed to strictly follow Quality Assurance / Quality Control systems in all projects to meet and exceed client's expectations.

Objective n° 2

Taking-up fast track project and providing quality construction services by reducing cost and time by managing compliance to various standards, regulations, adherent with project Specifications requirements in a systematic and uniform way.

Objective n° 3

Ensure you get tangible business value out of quality projects by integrating related processes with performance management to drive continual improvement.

VALUES

Mission

To build on our reputation for integrity, excellence, experience and leadership as Qatar finest company by implementing our philosophy in:

- External stone
- Internal tiles, marble and granite
- Gypsum
- Glass
- Shower installation
- UPVC and aluminum doors and windows
- Wood decorations and cabinets
- Barcola iron, doors and windows

Hawchar contracting will continue to develop in order to respond to the challenges facing the construction industry and to meet as well as exceeding the engineering needs, home interior transform, Decorations, and structure renovations

Vision

PROJECT TIMELINE

We receive your project from the beginning and do all the necessary work on it, including electricity, wood, marble, and plumbing works... and we deliver it to you ready.

CONCEPT IN BUSINESS

Over the last few years, Qatar has been recognized as a country with a vision to provide leadership and collaboration in guiding and adopting environmentally sustainable practices for green building design and development to support the health and sustainability of environment, people and economic security for generations to come.

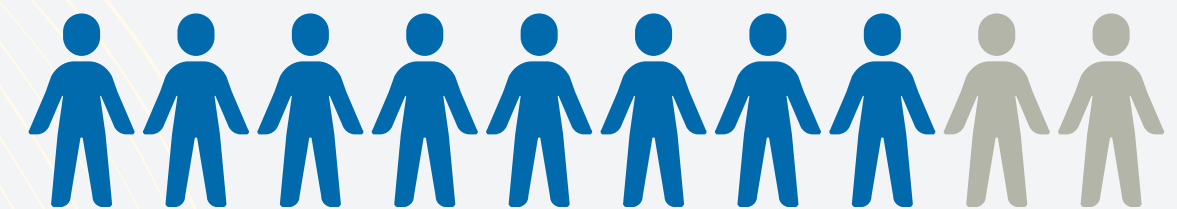

Golden Design in line with Qatar's vision.

Iconic 2022

A wide-angle shot of a modern gym interior. The space features a light-colored wooden floor and a ceiling with recessed lighting. Several large, light-colored wooden pillars are spaced throughout the room. In the background, a large mirror reflects the gym equipment. Various exercise machines are visible, including a large black machine on the right, a smaller black machine in the center, and a black machine on the left. A black bench is in the foreground. The overall atmosphere is clean and modern.

3-Private villa
Al anayze

A large, multi-story private villa with classical architectural features. The building is constructed from light-colored stone or concrete. It features a prominent portico on the left side with four tall, fluted columns supporting a triangular pediment. The facade is adorned with numerous arched windows and balconies, each with decorative balustrades. The villa is set against a clear blue sky, and some palm trees are visible in the foreground.

5- Arabian oud

5- Arabian oud

A modern kitchen featuring stainless steel upper and lower cabinets. The countertop is a solid, light-colored material. The backsplash is composed of square tiles in two shades of gray, with some tiles having a decorative pattern of coffee cups and saucers. A small electrical outlet is visible on the lower right side of the backsplash.

**6-modern kitchen
restaurant**

A modern kitchen interior featuring a large, polished stainless steel range hood mounted above a tiled backsplash. The backsplash is composed of square tiles, some of which are plain white, while others feature a detailed, embossed pattern of various kitchen items like cups, saucers, and teapots. To the left of the range hood, there are glass-fronted upper cabinets reflecting the surrounding environment. To the right, a tall, narrow glass-fronted cabinet or display case is visible. The ceiling is white with recessed lighting, including a circular light fixture and a track lighting fixture with a single bulb. The overall aesthetic is clean and contemporary.

6-modern kitchen
restaurant

A modern kitchen interior featuring stainless steel cabinetry and countertops. The backsplash is composed of square tiles with various patterns. A window with orange-tinted glass is visible in the background. The kitchen is clean and well-lit.
